During the War he commanded submarines in the Mediterranean, the Dardanelles, and the North Sea. For a time he was on the staff of Vice-Admiral de Robeck. In 1921 he was in command of submarine M 1 (afterwards lost with all hands), in 1923-25 of the flotilla in China, and in 1925-27 of the submarine depot at Gosport. Promoted to commander in 1924, after being executive officer of the cruiser Capetown in the West Indies, he was executive officer of the Durban in China in 1927-29, and has since commanded the destroyer Amazon and the Broke and Castor in reserve at Devonport.

CHINA PATROLS

H.M.S. Witch, which has been sent to Pagoda anchorage at the mouth of the Min River as a precautionary measure in view of reports of activity by Communist forces in Fukien, is one of the destroyers of the Eighth Flotilla which has done very good work on patrol since it was sent to China early in 1927 from Rosyth. The Witch had been at Hong-kong since July 12 for docking. Her commanding officer, Commander J. M. Howson, was appointed in May, 1933, shortly after completing the Staff College course.

INDUSTRY IN BRITAIN

Marked Increase In Activity

London, August 25.

During the June quarter industrial activity in Britain was 14.1 per cent. better than in the corresponding quarter last year. This figure is arrived at from particulars gathered from various sources by the Board of Trade whose standard is the index number based on quarterly average of 1924 which is taken as being 100.

The general index for June quarter of this year is 110.3 and is the highest recorded since the March quarter of 1930. The index for manufacturing industries alone is 113.4 which is the highest since this series of index numbers was first completed in 1927.

In six of eight groups of industries for which figures are available production was greater than the average for the base year 1924. The exceptions were mines and quarries and textiles. Comparing the group indices for the June quarter with three of the year earlier, considerable increases were recorded in iron and steel of 32.9 per cent. and for engineering and shipbuilding of 17.9 per cent. —*British Wireless.*

MADRID'S WILD AMAZONS

Storm The War Ministry

(Special to "Hong Kong Daily Press")

(By Telegraph, Copyright, Telegraphic Messages Ordinance, 1894. Received, August 26, 4.30 a.m.)

Madrid, August 25.

Three hundred hair-pulling and wildly clawing women attempted to storm the War Ministry here on Saturday in a vigorous protest against the much discussed "practice mobilization" of the Spanish population.

Turned away from their goal by the effective tactics of the police forces, Madrid's modern amazons paraded in the main squares of the city shouting in chorus "Down with Fascism," "Down with War." —*Transocean Kuo Min.*

LITHUANIAN CAMPAIGN

Kovno, Aug. 25.

The official Lithuanian campaign against each and every German influence in the public life in both the Memel Territory and the nation itself, went a striking step forward on Saturday with the issuance of a Government decree forbidding the State actors and actresses conversing between acts in the dressing rooms in any other language than Lithuanian. The decree affects janitors, scene shifters and all other employees of the State Theatre as well.

Special exception however, will be made in the case of foreign artists.—*Transocean Kuo Min.*

AMERICA AND SOVIET

No Agreement In Debt Claims

Washington, Aug. 25.

The collapse of the negotiations for the settlement of the Soviet-American debt claims, involving an amount estimated at $500,000,000, is indicated in a statement issued yesterday by the State Department.

It declares that it is impossible to be optimistic that an agreement will be reached.

The statement followed the visit of the Soviet Ambassador, M. Troyanovsky to the American Secretary of State, Mr. William Cordell Hull, for the purpose of presenting a counter-proposal in connection with the United States proposal which has made in writing recently.—*Reuter.*

GOETHE PRIZE

[Special to the "Hong Kong Daily Press" (*Copyright.*)]

Berlin, Aug. 24.

The annual Goethe prize will be awarded to the composer, Hans Pfitzner, on Tuesday, August 28—Goethe's birthday— at the famous Goethe family house in Frankfurt-on-Main. The famous composer of "Palestrina" and of the richly varied chamber music is considered specially fitted to receive the prize because most of the formative period of Goethe's own life, that is between the ages of forty and forty-four, was lived in a musical atmosphere.—*Transocean Kuo Min.*

HAPSBURG AGITATION

[Special to the "Hong Kong Daily Press" (*Copyright.*)]

Vienna, Aug. 24.

In diplomatic circles here great agitation exists about the proposed reunion of the Hapsburg and the Bourbon families at Mariazealler Villa belonging to Prince Hohenlo. Among those taking part are ex-King Alfonso of Spain and Field Marshal Archduke Friedrich. The Monarchists assert that this meeting was a purely family affair.

The unusually cordial reception to Archduke Otto by King Gustav of Sweden is pointed out as a further chance of favouring the assumption that the monarchists are planning important events in the future.—*Transocean Kuo Min.*

SECRET FRATERNITIES

[Special to the "Hong Kong Daily Press" (*Copyright.*)]

Berlin, Aug. 24.

The decision of the National-Socialist Party's Supreme Court on Friday excludes ex-members of freemasonry lodges from holding party office except by special permission. The simple membership of the National-Socialist party is admissible to former freemasons if entrance was obtained prior to January 30, 1933—the day Hitler was appointed Chancellor.

The decision ends a long and vigorous fight against the "secret fraternities" which resulted in the dissolution of all freemasonic lodges last year.—*Transocean Kuo Min.*

LONDON STREET NOISE

Effort To Abate The Nuisance

London, Aug. 24.

A determined effort is being made to lessen the noise of London streets at night and as from Monday next any motorist who within a radius of five miles of Charing Cross sounds a horn between 11.30 p.m. and 7 a.m. will render himself liable to a fine.

The Transport Minister, Mr. L. Hore Belisha, has also appointed a committee of seven specialists presided over by the well-known engineer, Sir Henry Fowler, to consider and report on the principal causes of noise in orperation of mechanically-propelled vehicles and the steps which can effectively to taken to limit it.

The Committee includes representatives of the motorcar and motorcycle manufacturers, scientists from the National Physical Laboratory and officials of the Transport Ministry.

Sir Henry Fowler is the Chairman of the Committee of the British Association which has been considering the question of the reduction of noise and has already carried out important investigations on the subject.

SPECIAL EXPERIMENTS

The Committee was set up at last year's British Association meeting and its experiments have been carried out at Southampton University and the National Physical Laboratory.

The results will be publicly disclosed at the Association's meeting at Aberdeen next month which will be attended by the Transport Minister. It is understood that the scientists have perfected a silencer which reduces the noise of motor engines to a minimum without lessening their power.—*British Wireless.*

BERLIN TAX RETURNS

Berlin, Aug. 25.

The tax returns for the first quarter of the present year rose 372.8 million marks over the figures of the same three months of last year according to the official accounts published here on Saturday night. Accompanying the statement, the State Secretary of Finances, Reinhardt, expresses satisfaction that the Government principle in turning back the vast majority of tax returns last year into work creation projects increased the Government receipts. The most welcome increases were recorded in the wage tax, corporation tax, turnover tax and freight transportation tax while the revenues from beer, brandy and tobacco continued to move upward.—*Transocean Kuo Min.*

STAVISKY CASE SUSPECT

Paris, Aug. 25.

The hunger-striking suspect in the Stavisky case, Attorney Guilloux-Ribaud who has stubbornly gone without food in the last ten days in order to force acceleration of his trial, was transferred half conscious on Saturday to the prison hospital in Fresnes near here. Despite his seriously weakened condition, the prisoner was still able to fight off attempts at forced feeding. Ribaud bases his protest on the "interminable length and partisan nature" of the preliminary hearings which have gone on for half a year.—*Transocean Kuo Min.*

FARM UNREST IN FRANCE

Paris, Aug. 25.

Farm unrest began to threaten France, the actual rioting incidently being approximately the same date as last year's irregularities, when the agricultural chamber, Cote du Nord, informed the Agricultural Minister, Queille on Saturday that only immediate measures for grain exportation could keep 80,000 farmers from marching on to the county seat of St. Brieux.—*Transocean Kuo Min.*

LORD BARNBY'S MISSION

Trade Investigation In Manchukuo

London, Aug. 25.

In a letter to the "Morning Post," in reference to an article therein quoting an interview in which he is reported by a London representative of a Japanese paper as having expressed certain opinions about the political relations of Great Britain with Japan and Manchukuo, Lord Barnby, leader of the British trade mission to Manchukuo states that he feels that some misunderstanding must have arisen in connection with the matter.

NO POLITICS

"The mission which I have the honour to lead to Japan and Manchukuo is not concerned in any way with political questions, which are entirely outside its scope," he said. "Neither am I personally qualified to express an opinion on political questions affecting the relations of Great Britain with other countries.

"I feel it right to make this quite clear in order to avoid any misinterpretation of the objects of the mission which is proceeding to the Far East."

"We are going there in an entirely unofficial capacity for business purposes, also in the hope of making friendly contact between the business communities of the respective countries."—*Reuter.*

BRITISH CO-OPERATION

London, Aug. 24.

The Industrial Mission under the leadership of Lord Barnby, will leave London to-morrow for Manchukuo to study conditions there and to ascertain whether British industry can co-operate with local interests in its development.

No political significance attaches to the visit of the Mission whose four members have been closely associated with the conduct of Federation which is the most powerful organisation of its kind in Britain and represents British industry in general.

The Mission's programme includes a call of courtesy and good-will in Japan with the object of establishing friendly contact with the representative organisations of Japanese industry and commerce.

The members of the Mission will probably also take the opportunity of visiting some of the principal centres of Chinese trade. The importance of establishing closer personal relations between the heads of industries in Britain and corresponding leaders abroad is generally recognised here and was emphasised by the prominent industrialist, Sir Harry McGowan, on his return from the Far East some months ago.

London newspapers express the hope that the work of the present Mission may help to prepare the ground for more specialised intercourse later.—*British Wireless.*

MISSION LEAVES

London, Aug. 25.

The head of the Federation of British Industries Mission, Lord Barnby, left to-day for the United States to fulfil business appointments in Canada and elsewhere before joining the remainder of the Manchukuo mission at San Francisco. The latter leave on August 29.—*Reuter.*

CARGO JUNK AGROUND

No Serious Causalties Resulted

According to a Canton vernacular paper, it is reported that during the week-end, a large cargo junk named Wah Kee, with a big quantity of cargo, left Canton for Kiu Kiang.

At about 9 a.m. that morning however, when the vessel was sailing near the shore of Kam Chook, Kiu Kiang District, she suddenly ran onto a submerged rock and grounded.

It was fortunate that the impact was slight, and the boat managed to get off after a few hours.

It is reported that immediately on arrival at the Kiu Kiang district, the boat unloaded her cargo and sailed to the dockyard for repairs.

No cargo was reported to have been lost or damaged, and all the passengers on board the vessel were safe.

Ashdown Adds 157 In Stand With Ames

SURREY V. KENT: CHAPMAN INJURED

London, Aug. 11.

Yesterday the Surrey bowlers were nearly as helpless on their own Oval sun-slab as their ancient rivals had been on Saturday, and against a first innings total of 501, Kent scored 378 for six. Thus they have saved the follow-on and are 123 behind with four wickets standing.

Surrey were exactly 500 for nine at the outset, but to the general surprise of a crowd that became a sweltering ten thousand during the afternoon, Holmes did not declare. It was ten minutes to 12, therefore, when Kent began their reply to a gigantic total.

The pitch had no difficulties for Ashdown and Fagg, but Gover whom they did not relish, was now in action, and Fagg's wicket fell to him with only 22 scored. A still more disappointing occurrence followed at 77, when Woolley was surprisingly leg-before in trying to drive a long hop from Watts to the pavilion fence. Fagg had fallen to a long hop, too. You'd have thought the batsmen from Kent would know what to do with hops, even long ones!

Ashdown and Ames, however, lifted their side into a relatively comfortable position, and before and after lunch, when the score was 111—Ashdown 59—they increased the runs with an invaluable 157 for the third wicket in two and a half hours.

Nevertheless the Surrey attack was never really mastered, and Ames showed much uncertainty to the great-hearted Gover, whose day-long defiance of the fierce sunlight was magnificent.

Indeed all the bowlers worked with a will, in spite of the discouragement out in the middle, to everybody except the batsman who played forward. Brown and Watts never grew slack, and Fender brought real wizardry into a place so dazzlingly bright and clear that any sort of mystery was an anachronism.

Ashdown Gets An Eight

In Gover's second over after tea Ashdown's long innings closed also. He had batted nearly four hours, and his hits included thirteen 4's and an 8, of which 4 were the gift of an overthrow. Kent were now 239 for four, and when Watts crashed Valentine's off-stump out of the granite ground at 276 they still required 76 to save the follow-on.

Much doubt assailed them. Moreover, another good wicket fell—that of Chalk—at 347 to a smart slip catch, before they breathed easily again. Chalk had helped Todd to add 71 for the sixth wicket.

Todd who looked more sure of himself than anyone, and whose steadfastness is becoming quite a feature of Kent cricket, stayed with his captain to the close, and he is 62 not out. Chapman appeared with a hand heavily bandaged—another Kent casualty! It was good by the way, to feel the warmth of Chapman's welcome from the ringside. The Oval crowd does not forget its old heroes.

SCOTLAND SAVE GAME

A. F. Kippax, who led the Australians against Scotland at Edinburgh, needed only 10 runs to complete a century when he declared in an effort to force a victory. Set to get 224 to avert an innings defeat, Scotland lost six batsmen for 51, but Smith and Huddleston defended for an hour, and the game was saved with two wickets in hand.

DEMENTED GIRL IN SHANGHAI

Creates An Exciting Scene

Shanghai, Aug. 25.

The sedate atmosphere of the United States Consulate-General here was rudely disturbed this morning when a demented Eurasian girl entered the passport office with a bloodcurdling whoop and swept off everything from the counter and dashed into the shipping office where she was seized while officials held a consultation.

She broke loose, however, and uttering shriek after shriek, dashed into the office of the Consul-General, the office of the Clerk of the Court and then into the office adjoining that of Judge Helmick and on to a balcony.

There she was seized by Mr. Arthur Petersen, Assistant Deputy United States Marshal, and was taken to the Central Police Station. *Reuter.*

CHURCH STATISTICS IN BERLIN

Births, Deaths And Marriages

[Special to the "Hong Kong Daily Press" (*Copyright.*)]

Berlin, Aug. 25.

The statistics for births, deaths and marriages of the Evangelical Church in Berlin for the year 1933 have just been completed and revealed an interesting fact that the reflux into the Churches is very marked. For instance, the number of baptisms in 1933 were nearly fifty per cent. higher than in 1931, the figures being in 1931, 28,452, in 1932, 26,232 and in 1933, 38,382. In the last figure are included 14,290 late baptisms where the children were over one year old.

The amazing increase is the number of church weddings which in Germany are not compulsory, only the appearance before the registrar is essential. In the year 1931 church marriages numbered 10,457, in 1932, 9,854, and in 1933, 21,692. Of these, the figures for 1933 included 4,978 couples who applied subsequently for church ceremony that is the couples where the church ceremony was performed more than one month after the civil act.

In the case of burials, confirmations and sunday school attendance the divergencies from the previous years are only slight. The most interesting are the figures showing the movement from the church and the reflux in to the church. In the year 1931 exists from the Evangelical church were 65,165, in 1932, 48,519 and 7,800 whereas the refluxes in 1931 were 3,272, 1932, 4,272 and 1933, 63,815.— *Transocean Kuo Min.*

FURIOUS STORM IN ENGLAND

An Unusual Visitation

London, Aug. 25.

All traffic and other outdoor activities in the south-east coast towns in England ceased during an unusual visitation to-day of a furious storm which blacked out the sky.

Roads were soon flooded and many houses were damaged by water. The streets of Deal were littered with birds killed by hailstones.— *Reuter.*

AMERICAN AND CUBAN TRADE

Reciprocal Treaty Signed

Washington, Aug. 25.

A reciprocal trade treaty between the United States and Cuba, has been signed and will operate from September 3 for three years.

OVERHAUL OF N. R. A.

General Johnson To Continue As Head

Washington, Aug. 25.

President Roosevelt yesterday held separate conferences with the National Recovery Administrator, General Hugh Johnson, and Mr. Donald R. Richberg Director of the Industrial Emergency Council. The President afterwards announced that General Johnson is continuing as N.R.A. Administrator and that he had asked, regardless of differences, that new plans for re-organisation of the N.R.A. be prepared within a fortnight, when President Roosevelt's experts put the plan into effect. General Johnson and Mr. Richberg agreed that this could be done.

It is emphatically announced that no break has occurred between them. Nevertheless, observers insist that there are definite indications of a conflict under the surface.

General Johnson claims that the reorganisation programme was proposed by him before President Roosevelt's departure for Hawaii while Mr. Richberg states that the fortnight's interim, fixed by the President will give General Johnson "time to work out his own ideas."

It is believed that a complete programme has been evolved, features which are unpleasant to General Johnson, who has been given a fortnight in which to decide whether they are acceptable.— *Reuter.*

WOMEN'S WORK ARMY

Berlin, Aug. 25.

Ten thousand young German girls are occupied in the Third Reich's feminine "work service," according to the first complete statistics of the women's division of National-Socialism's greatest social innovation issued here on Saturday. The average age of the voluntary female workers runs between 19 and 21 while the majority were recruited from Germany's most highly industrialized sections, Saxony, Rhineland and Westfalia.

Over 6,000 of the women's work army are engaged in assisting men in the labourers' settlements on the outskirts of large cities and in helping farmers in rural neighbourhoods to a higher standard of living. Outside the special two hundred camps in which girls are remaining two-fifths assist the social service work of the National Socialist welfare association in unemployment centres. Further groups of young women from the country neighbourhoods are quartered with the local farmers whom they assist in return for board and lodging and a nominal payment.

The average term of work service expires at the end of twenty six weeks.— *Transocean Kuo Min.*

SENTENCE REVISED

Darmstadt, Aug. 25.

The new "Supreme Court of National Health" revised on Saturday a judgment recently passed here condemning a sexual criminal to sterilization. The revised sentence provides two years' imprisonment instead, on the ground that the defendant had no previous criminal record.

The Court expressly declared that sterilisation is to be regarded as the ultimate ration to be applied only when it is certain all other means of correction are exhausted.— *Transocean Kuo Min.*

THE RAINFALL

It rained continuously in the Colony for 16 days since August 7 and the total rainfall recorded in this period was 18.11 inches as compared with a normal fall for the same period of 7.21 inches.

"LIBERTY LEAGUE"

Too Much Emphasis On Property

Washington, Aug. 25.

President Roosevelt has informed pressmen that the newly-formed American Liberty League emphasised too much the protection of property and too little the protection of the average citizen.

The President quoted someone else as saying that the tenets of the League appeared to be "Love thy God, forget thy neighbour," the God they really meant being property.— *Reuter.*

A FAMILY QUARREL

Chinese Woman Commits Suicide

A Chinese woman named Lee Tsat Koo, who lived at No. 6, Causeway Bay Road, attempted to commit suicide by jumping over the sea-wall near the Royal Naval Dockyard last Saturday night.

It was stated by an eye-witness that the victim was walking with a man, alleged to be her husband, along the Praya that night, and that when they passed near the Royal Naval Dockyard, the victim suddenly threw herself into the sea. The man, on seeing this, raised an alarm for help, and the victim was afterwards rescued by near-by boatmen. She sustained minor head and body injuries.

It is alleged that a family quarrel had caused the woman to attempt suicide.

KING AND QUEEN AT COWES

Arrival With Duchess Of York

(Special Air Mail Service.)

London, August 9.

The King and Queen, accompanied by the Duchess of York, had a very enthusiastic welcome on their arrival at Cowes. Their Majesties' cruise from Portsmouth in the Royal yacht Victoria and Albert was made in perfect weather.

When the yacht, escorted by H.M. destroyer Valentine, entered Cowes Roads, Royal salutes were fired from the guardship, H.M.S. Malaya, and the Royal Yacht Squadron battery on shore.

Yachts lying in the roadstead dipped their ensigns in salute as the Victoria and Albert proceeded west, then turned round and returned to her moorings in the roadstead, her dark blue and gold outline glistening in the sunshine. An admiral's salute of fifteen guns was fired from the Royal Yacht Squadron as the King's flag as admiral of the R.Y.S. was hoisted on his racing yacht Britania. Her crew, lined upon her deck, saluted as the Royal yacht passed.

Hearty Cheers

Shortly before six the King and Queen and the Duchess of York, attended by Marquise d'Hautpoul, Sir Philip Hunloke and Admi, Sir Herbert Meade-Fetherstonhaugh, landed from the pinnace at the Royal Yacht Squadron. Here they were received by the commodore (Sir Richard Williams-Bulkeley) and the secretary (Capt. F. W. Weldon Walshe). A large crowd had assembled on Cowes front and cheered their Majesties heartily.

The Royal party spent nearly an hour at the Royal Yacht Squadron, entering the club and also visiting the new ladies' annexe which has been reconstructed on Castle-hill close to the Squadron entrance.

Their Majesties had travelled to Portsmouth by special train from Victoria. Crowds had cheered them as they embarked at Portsmouth and sailed down past Southsea, the King in his undress uniform of an admiral of the fleet and the Queen in her cream-coloured dress and toque, being clearly visible from the shore.

LESSON SERMON

First Church Of Christ, Scientist

"Mind" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, August 26th.

The Golden Text was: "Who hath known the mind of the Lord? or who hath been his counsellor? For of him, and through him, and to him, are all things: to whom be glory forever" (Romans 11:34 36).

Among the citations which comprised the Lesson-Sermon was the following from the Bible. "Who hath directed the Spirit of the Lord, or being his counsellor hath taught him? With whom took he counsel, and who instructed him, and taught him in the path of judgement, and taught him knowledge, and shewed to him the way of understanding?" (Issiah 40:13,14).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Divine metaphysics, as revealed to spiritual understanding, shows clearly that all is Mind, and that Mind is God, omnipotence, omnipresence, omniscience—that is, all power, all presence, all Science. Hence all is in reality the manifestation of Mind" (p. 275).

"YOU SAID A MOUTHFUL"

A Big Rib-Tickling Hit

Never in the memory of the most ardent Joe E. Brown fan has there been such a riot of fun and laughter packed into six reels of enterainment as was unwound last night at the Alhambra Theatre in "You Said a Mouthful."

If the enjoyment manifested by the first night audience at Joe's struggle to be a champion swimmer is any criterion, it's going to be difficult to get seats at the Alhambra Theatre as long as "You Said a Mouthful" is on the screen.

With an inborn timidity about water that amounts almost to phoebia, Joe finds himself mistaken by the girl of his dreams—at least, he starts dreaming about her as soon as he meets her— for the champion swimmer of Canada, Joe Holt, who is the favourite in the forthcoming swimming race from Catalian to the California mainland, a mere twenty-seven miles away.

Between his determination to be everything Alice thinks he is, and the relentless coaching of his pickaninny ward—a darky orphan—Joe somehow manages to get used to the water and learn the rudiments of swimming.

Of course, Joe wins the race—who ever heard of Joe E. Brown failing to do anything he started out to do?—but that's a mere detail. If anything funnier than this swimming match has ever been filmed on land or sea, we've forgotten what it is. And the race itself is only the hilarious side-splitting climax to five reels or-more of merriment that ranges from audible chuckles to deafening roars and shrieks of laughter. It seemed to us that the only time the audience stopped laughing was when they were out of breath and couldn't do anything but gasp until they got their second wind.

It would be easy to pick out a dozen high spots in Joe's career as a champion swimmer and swell upon them, but it would equally be a shame to give away any of the delightful twists and surprises of "You Said a Mouthful." It's enough to say that anybody who misses Joe E. Brown in this picture will miss one of the funniest experiences of a lifetime.

"THE GHOUL"

Thrills and Shivers

"The Ghoul" which is showing at the Queen's Theatre is another of those spine shivering films in which Boris Karloff has figured so prominently. Like "The Mummy" and "Frankenstein," this picture tells of a dead person who comes out of his grave in search of his lost treasure. Before he dies, he tells his servant to bandage his hand with a jewel, known as the Eternal Light," within his grasp, and at the same gives a warning that if the stone is stolen he would leave his tomb to kill!

The jewel is stolen, and from then on the audience is brought to a number of wierd scenes which culminate is a thrilling climax. It is not until that murder has been committed, the jewel restored to the rightful owners and the tomb destroyed by fire that a sane peace descends on those concerned.

The film has achieved its object well—thrills and excitement—and with a capable cast including Sir Cedric Hardwicke, Ernest Thesiger and Dorothy Hyson, lovers of thrills should not miss this picture. It is preceded by two very interesting "Shorts"—a "Pathetone Weekly" and "Cine-Magazine, Novelty" which help to make the current programme extremely tempting fare.

"OPERATOR 13"

Coming To The Queen's

Out of the Pages of history has come another great motion picture theme to thrill theatre audiances with one of the finest romances seen upon the screen in recent years.

This time it is "Operator 13," the exciting Robert W. Chambers story which Metro-Goldwyn-Mayer-Cosmopolitan presents as Marion Davies' newest starring vehicle and which opens on Wednesday at the Queen's Theatre.

Yet it is not, in a sense, a war story. It is a gripping love story for which the Civil War serves only as a background. It is the story of an all-powerful love affair involving a beautiful woman spy of the Union army and a gallant spy of the Confederate forces.

As Gail Loveless, the federal spy who is sent into the Southern lines to destroy the most dangerous spy of the Confederacy, Miss Davies contributes her finest dramatic performance of her eventful screen career.

Gary Cooper, the Southern spy, equally surpasses all his former screen roles as the man whom Miss Davies sets out to destroy and with whom she falls in love.

The masterful direction of the picture was conducted by Richard Boleslavsky, former noted director and actor of the Moscow Art Theatre who has been responsible for such entertaining pictures as "Rasputin and the Empress" and "Men in White."

The story is a story of spies, of espionage and intrigue, and throws a new historical light upon the most dramatic of all America's conflicts—the Civil War.

Nothing apparently was spared to make "Operator 13" as authentic as possible. Through it are woven many characters whose names have become immortal in America's history—Abraham Lincoln, Pauline Cushman, Allan Pinkerton, General "Jeb" Stuart and many others. The role of the famous spy, Pauline Cusham, is admirably handled by Katharine Alexander. Sidney Toler plays the part of Pinkerton, at one time chief of the federal secret service, and Douglas Dumbrille brings back to life the greatest of all cavalry leaders "Jeb" Stuart.

Of comedy, there is plenty, supplied by Ted Healy in the role of a spy masquerading as a medicine man. A secondary romance, one of the sweetest to be seen on the screen, is supplied by charming Jean Parker and Henry Wadsworth, a junevile newcomer to the screen.

Too, the musical spirit of the Old South has been ably captured and made a vital part of the story with songs and music by the Four Mills Brothers of radio fame, by Miss Davies and by the old-fashioned dances that have been revived for the production.

"Operator 13" is a picture well worth seeing. It is an education itself.

THE ONLY GIRL

Lilian Harvey Scores Again

With its lilting music and gay atmosphere of the courts of the Empress Egenie "The Only Girl," the picture which commences at the Alhambra on Thursday, presents Lilian Harvey in a delightful setting.

This winsome little actress trips her dainty way through court intrigue and romantic interludes and sings some excellent musical numbers.

The story is captivating and tells of the love of a wealthy duke for an unknown singer, who had sung at his bedside when he was supposed to be dying and unable to see her.

The singer is Juliette (Lilian Harrvey), hairdresser to the Empress Eugenie and the song is her fiance's composition to her. The situation becomes very intriguing when the duke imagines that the Empress herself was the lovely vocalist at his bedside and Juliette becomes very jealous. However, her fiance untangles the mystery and realising that Juliette is in love with the duke sets her free to find happiness with him. Some fine acting is contributed by Ernest Thesiger, Charles Boyer and Mady Christians.

Familiar Path

"It was a church wedding," said the best man. "Just as Frank and the widow started down the aisle, however, every light in the building went out!"

"What did the couple do then?"

"Oh they just kept on going. The widow knew the way."

MURDER AT THE VANITIES

Now Showing At The King's

The large attendance at every performance of "Murder At the Vanities" now showing at the King's Theatre is ample testimony of the picture's worth. The theme is one that provides an excellent background for the good musical and dance numbers, while a murder plot is cleverly woven into the story to give it continuity.

Victor McLaglen and Jack Oakie are co-starred with Carl Brisson. There is no want of wit and humour in this picture, as whereever you see McLaglen and Oakie you can be sure of plenty of amusing dialogue.

The producers have been extremely lavish with their settings and the dance numbers are as gorgeous as they are brilliant. The music too will be remembered for a long time. The plot is very thin, but that's not the main attraction of the film.

Very clever photography is employed to bring out the beauty of the charming ladies who form part of the "Vanities." The picture has to be seen to be appreciated.

In addition to the main picture there is a very clever cartoon of "Pop-Eye the Sailor Man." If you have not made your acquaintance with "Pop-Eye" better do so at once, as his cartoons promise to find as big a support in Hong Kong as "Betty Boob," "Mickey Mouse" and "Felix."

CRAIGENGOWER AND INDIAN R. C.

LEADING IN FIRST AND SECOND DIVISION OF LAWN BOWLS LEAGUES

Several Surprises On Saturday

The bowls fixtures on Saturday provided an indication of what might prove to be the ultimate standing of the various teams in the first and second divisions of the Lawn Bowls league. The Craigengower C.C., by their victory over the Kowloon Bowling Green Club are now favourites for the first division as they tie with the Bowling Green in points with a game in hand.

A surprise was provided by the Craigengower "B" team who accounted for the K.C.C

In the junior division the Indians won, as expected, from the H.K. Electric R.C., and the Police beat the Civil Service. The big surprise in this division was also provided by the Craigengower, who accounted for the Kowloon Bowling Green, this putting them out of the race for league honours.

The H.K. Football Club won their third match of the season when they beat the Club de Recreio on the latter's ground.

DIVISION I.

K.B.G.C. DEFEATED

Kowloon Bowling Green's defeat by Craigengower was mainly due to the success of Omar's rink over W. Macfarline's. The difference was 8 shots and it was more than enough to cover the one point deficit in Bradbury's rink which was matched against R. Hall's and the 3 points conceded by Basa to L. Guy. The struggle was a close one and final scores were 62-58 in favour of the Happy Valley team.

K.C.C. GOES DOWN

The Craigengower C.C.'s "B" team playing at Home managed to account for the K.C.C. by 69 shots to 52. C. S. Rosselett's rink beat Fraser's by 22 shots to 20, A. A. Lewis' rink won by 20 shots to 16 from R. P. Philips and J. Cavanagh's four obtained 27 as against Silkstone's 16.

The home team were in great form and fully deserved their victory, Lewis in particular playing a very steady game, being time after time responsible for the shot.

THE DOCK "DERBY"

Played on the Kowloon Dock rinks, the Derby between the two docks provided a narrow win for the home team. The final score was 63-59. For Taikoo Wallace's rink was successful against W. Creig winning by 21-16, but McKeown (Taikoo) went down to J. C. Brown by 17-25 and Chalmers (Taikoo), also had hard luck when his team went down to J. W. McKelvie's by a single shot (21-22). On the run of the play there was little between the strength of the teams.

POLICE SWAMPED

Following a series of victories, the Police R.C. found their luck 'out' on Saturday when they were at home to the Civil Service. Simmonds, Strange, Collyer and Jones (Civil Service), beat Dowman, Kelly, Post and Hollands by 40-9 the big margin rendering play on other rings a matter of indifference so far as the final result was concerned.

Hollidge's rink beat Moss' by 19 to 14. The only Police rink to win was that skipped by A. R. Clarke which came away victorious by 23 points to 20 against a team skipped by A. O. Brawn.

DIVISION II.

INDIANS STILL LEADING

The Indian R.C. continue to hold the leading position in the junior league. On Saturday they won on all three rinks against the Electric R.C., A. R. Minu's four contributing the biggest share towards victory, when they beat L. de Rome's four by 28-17.

K. M. Omar accounted for N. M. Currie by 16-15 and A. R. Wallah's team beat A. F. Paul's by 19-17.

K.B.G.C. FALTERS

Kowloon B.G.C.'s second team dropped out of the race for league honours when they were beaten by 68-55 by the Craigengower C.C. at the latter's ground. E. C. Barry's rinks was mainly responsible for the home team's victory, beating J. S. Logan's four by 29-17. W. K. Way (C.C.C) won by a single shot (19-18) from H. H. Rose while V. Atienza managed to tie the score with G. E. F. Thompson (20-20). Atienza had a commanding lead at one time by a 5, 4, and 2 in consecutive heads but towards the end gave the K.B.G.C. the chance to draw up again.

POLICE GOING STRONG

The Police R.C. who are in the run for the second division honours made certain of their match with the Civil Service R.C. by winning in convincing manner, coming away 69-54 to the good. W. Glendenning (for the Police) went down to R. R. Wood by 18-23, but McHardy and A. E. Carey both won from H. L. Lockhart and L. G. Luck respectively by 24-15 and 27-16.

YACHT CLUB WINS

The K.C.C. playing at home against the Yacht Club went down by ten shots in spite of the fact that they won on two out of three rinks. This was due to the fact that Reed, Young, Ross and Chapman representing one of the Yacht Club's rink won by 20-8 against a K.C.C. rink skipped by J. M. Jack.

FOOTBALLER'S WIN

The H.K.F.C. playing on the greens of the Club de Recreio won by 61 shots to 59.

J. J. Basto's 15 shots victory over A. Brooksbank was not enough to meet the margins conceded by C. H. Basto and Dr. R. Basto who went under to F. W. Haynes and J. Russell respectly by 25-14 and 23-17.

LONDON NOTES

By The Air Mail

(From Our Own Correspondent)

London, Aug. 11.

I spent my first London Bank holiday, with the jolliest people on earth.

I arrived only recently in London from Australia, and this holiday bustle in early August puzzled me at first.

I pondered where to go. The holiday crowds were flocking out of London by rail, road, air and water. When such a jolly company was abroad it was a pity to stay behind. But where to go?

Why, Hampstead Heath, of course. So Hampstead Heath it was.....

There in its pleasant glades and on its furze-covered slopes I rubbed shoulders with the happiest throng in England. The babel of sounds might have been called raucous by the over-discriminating, but when the hurdy-gurdies rasped out "The Lily of Laguna," when the costers in fullthroated chorus shouted their wares, and the hoopla and the coconut stall-keepers vied with the gypsy fortune-tellers in soliciting for the silver or coppers of the crowd I was exhilarated.

I tilted my cap at the saucy young ladies with the provocative paper hats, bearing such legends as "I'm No Angel" and the like; I sampled the cockles and whelks; I did my best on the Crazy Walk, the Craze of New York.

I enjoyed myself hugely. It was a glorious open-air holiday.

London-New York Overnight

When I was last in the United States Mr. "Buckie" Fuller, the American inventor, prophesied that by 1939 business men would be dining in New York and breakfasting the next morning in London.

The prophecy may be fulfilled even sooner. Two or three years ago the average time for the 3000-mile air flight from New York to Los Angeles 36 hours.

The other day the first transcontinental sleeper airplane of the new Lindbergh line did it in sixteen hours. The liner carried fourteen passengers, and is one of a fleet of 41 which are to be put into regular service immediately.

The New York-London route is approximately the same length. To cut sixteen hours' flying down to twelve should not take more than five years.

A Fund For Nijinsky

I heard last night at Covent Garden (open in August for the first time in living memory) that Nijinsky is in a bad way financially.

Apparently he is in debt to the mental home where he has been a patient for some years to the extent over over £2000.

This is no fault of his relations. Further credit is refused, and if the money is not paid he will either go into a public asylum or be sent to Russia.

An appeal for financial assistance from those who like the ballet and admired Nijinsky is going to be made.

The King And President Hindenburg

The question is being asked why the King should have sent his condolences on the death of President Hindenburg not to Herr Hitler, as head of the German Government, but to Colonel Oskar von Hindenburg, the dead President's son. The explanation is this.

The King only addresses the head of a State, not the head of the Executive. He received the news of President Hindenburg's death on board the royal yacht at Cowes yesterday morning, some hours before it became known that Herr Hitler had declared himself President-Chancellor, and accordingly he addressed his message of sympathy to Von Hindenburg's nearest relative, his son.

The amount applied for in tenders for the £30,000,000 Treasury bill this week was £69 320,000. The maximum amount was allotted in bills at three months. The average rate per cent. was 14/3.26, as compared with 15/5.6 a week ago.—*British Wireless.*

A sentence of six months hard labour was passed on an unemployed Chinese named So Kam San by Mr. Hamilton at the Central Police Court on Saturday morning, when he was charged with housebreaking at a Chinese shop No. 59, Johnston Road, Wanchai during the weekend.

It was alleged that about 5.00 a.m last Friday, the accused attempted to break open the door of No. 59, Johnston Road, Wanchai ground floor, but was observed by a Chinese District Constable who immediately walked up and had the accused arrested.

The accused pleaded guilty to the charge, and said that he was forced to commit the crime, as he had nothing to eat.

FRED PERRY'S ROMANCE

At Film Studio

(Special Air Mail Service)

London, Aug. 11.

The story of the engagement of Fred Perry, world's champion lawn tennis player, to Miss Mary Lawson, the film actress, was told to Bruce Harris by Miss Lawson at her home at Streatham to-day. She said:

"Some weeks ago Fred came down to the Walton-on-Thames studio to see Mr. Charles Farrell, with whom he had become friendly while in Hollywood.

We were introduced and have since met on many occasions. Now we are engaged."

"We made up our minds about it when I saw him off to Newcastle at King's Cross Station on Wednesday night.

"He had arranged to play in a lawn tennis exhibition match there yesterday.

"We have no idea yet when we shall be married.

"I watched all the Davis Cup matches in company with Fred's father. That 15—13 set against Frank Shields was just marvellously thrilling.

"I have been on the stage for ten years, and now am on the films. That doesn't make me as old as it sounds. For I was cast for my first part—one of the babes in a touring Babes in the Wood Pantomime—when I was just 9!"

First Film

Miss Lawson has fashioned her own career on the stage and films. She was born at Darlington, Durham, the daughter of a railwayman there.

Her first film part was in "Colonel Blood." Now she is doing film work with Miss Cicely Courtneidge.

Perry's father, Mr. S. F. Perry, of Ealing, had not heard until to-day of the engagement.

"I won't say it comes as a bolt from the blue," he said, "for I have known how friendly they have become of late. Both Mrs. Perry and I are delighted."

Perry leaves for New York next Wednesday to defend his title of United States champion, and then he will probably visit Hollywood and Australia.

SCHMELING FIGHT ENTHUSIASM

Twelve Rounds With Neusel

[Special to the "Hong Kong Daily Press" (*Copyright.*)]

Hamburg, Aug. 25.

With special trains and steamers already beginning to pour thousands of spectators into the famous seaport town for the Schmeling-Neusel fight on Sunday night, the heavy betting ran odds in favour of the former title holder by one and a half to one. Few expect the twelve-round heavyweight bout to go the full distance since the speedy youngster, Neusel, is pinning his main hopes on an early knockout through his famous rushing tactics, while the training camp experts on the other hand assess Schmeling's powerful right has returned to shape which has brought him fame and fortune in America.

Neusel has arrived here for the big bout in an airplane on Saturday while Schmeling is expected by motor from Travenmende on Sunday morning.—*Transocean Kuo Min*

SCOUT AND GUIDE RALLY

"AT HOME" GIVEN BY H. E. THE GOVERNOR

Large Gathering At Mountain Lodge

Mountain Lodge, the Peak residence of His Excellency the Governor, Sir William Peel, K.C.M.G., K.B.E., and Lady Peel, was the scene of much activity on Saturday afternoon when His Excellency and Lady Peel were "At Home" to over 600 Boy Scouts Girl Guides, Wolf Cubs and Brownies.

These "At Homes" have now come to be a regular item in the Scouts' programme for the year and as was the case with all the previous outings, Saturday afternoon's function was thoroughly enjoyed by all those who attended.

The Peak Trams did a good business, conveying the guests to the Peak and from 2 o'clock onwards, groups of Scouts, Guides, Cubs and Brownies could be seen making their way up the hill. They formed a hollow square on the lawn and the arrival of His Excellency, Lady Peel, Lady Southorn accompanied by the Rev. G. T. Waldegrave, was the signal for a great burst of cheers.

Presentation To Commissioner

The opportunity was also taken of presenting to the Rev. G. T. Waldegrave (who is shortly giving up the position of Commissioner on leaving the Colony), a telescope and a draft (from the Scouts) and a Thanks Badge from the Guides. The presentations were made by His Excellency and Lady Peel respectively.

After welcoming those present to Mountain Lodge on behalf of Lady Peel and himself, His Excellency said that he wanted to thank them for bringing the sun with them as he had grown rather pessimistic regarding the prospects of a sunny afternoon. He went on to say that he hoped they would all enjoy themselves and that the various units will mix freely as that, more than anything played a great part in promotion good fellowship. Continuing, His Excellency said:—

"It is necessary that I should strike one sad note. This is probably the last occasion of this kind that we shall have Mr. Waldegrave with us, as he is leaving next Tuesday. He has been in charge of the Scouts for some 13 years during which time the movement has made great progress.

"There were, when he came here, if my figures are correct, the following troops;—1 Sea Scout Troop, 8 Scouts Troops, 3 Cub Packs, and one Rover Troop. To-day there are two Sea Scouts Troops, Six Cub Packs, and Five Rover Troops.

"This progress speaks volumes for his work and he was quite rightly rewarded some years ago with the decoration of the Silver Wolf.

"IDEAL COMMISSIONER"

"Mr. Waldegrave is an ideal Commissioner. He begins, if I may say so, with the stature of an ideal Church militant and has great human understanding, tact, and sympathy. He is very insistent on efficiency and that has mainly been responsible for the increase of the troops. If the troop has got to be allowed to exist it has got to be efficient.

"He is going Home, deservedly, after all these years, but I am sure his thoughts will often be across the seas with you for whom he has done so much. I have been asked as Chief Scout to make a presentation from the Scouts in token of their affection and regard for him, and I have much pleasure in doing so. I hope he will be able to keep his eye on you with this very useful telescope.

"I take the opportunity of thanking him myself for the great work he has done in the Colony, and I wish him great happiness in his retirement."

ENGRAVED TELESCOPE

His Excellency then handed Mr. Waldegrave a handsome telescope on which was engraved:

"Presented to the Rev. G. T. Waldegrave, M.B.E., M.A., Colony Commissioner, Hong Kong Boy Scouts' Association as an inadequate token of his devoted services to the Scout Corps for 13 years in the Colony by the Council Scouters Scouts, and Cubs."

Lady Peel in a short speech said: "I have been asked to give you this "Thanks" Badge from the Brownies and Girl Guides, and I will just read what the accompanying illuminated address says:

"This "Thanks" Badge is presented to the Rev. G. T. Waldegrave, M.B.E., Commissioner Boy Scouts' Association of Hong Kong as a token of their warm appreciation of his unfailing support and help, and as a souvenir the Scout and Guide organisations in Hong Kong. Signed by Violet Peel (President), Bella Southorn (Colony Commissioner) Evelyn Grist (Assis. Commissioner), Iris Herklot (District Commissioner), Winifred Phillips (Hon. Secretary), and Dorothea Danby (Hon. Treasurer)."

In reply the Rev. Waldegrave said he could hardly find words to express his appreciation of everybody's tributes and gifts.

"JOLLY TIME"

"I don't know what they will think of me in England for wearing a Girl Guide badge—they may think I have skirts on me somewhere," he said amid laughter.

Continuing, the Rev. Mr. Waldegrave said he wished to thank the subscribers to the draft with which he had also been presented, and said he would probably get a writing desk with it at Home.

"I have had a tremendously jolly time in Hong Kong. This is a wonderfully fine place for scouting, though of course you can't go about chopping down trees anywhere. You can't do that in England, which is a very fine scouting country, too. I used to have a troop in a slum area there, and we had to walk three miles before we found a bit of grass and a tree to climb, and while we were marching through the streets the people used to shout "Yah! Yah! Dirty knees.....etc. (Laughter).

"It was things like that which made scouting difficult, but which produced some very good scouts.

"I am glad there remains that close friendship between the two movements of Scouts and Guides .....which is largely due to the efforts of Lady Southorn. I hope the jubilee celebrations in May next will be a great success. Remember your promises. They are tremendously hard to keep but because of that they are worth keeping."

Latest reports from Chinese sources state that with a view to easing the financial depression and giving work to the unemployed, the Authorities of the Sun Wui District Government, have recently decided to establish a large Industrial Institution in that district.

The principal of this Industrial Institution is to teach the poor-class people simple industries and give work to those unemployed.

CHINA'S GREAT SAGE

Birthday Of Confucius

To-day the 2,485th birthday of Confucius will be celebrated throughout the length and breadth of China, not only by the people, but even by the Nanking Government for the first time in its history.

This is evidence that the trend of popular feeling is towards all that is good and wise in the teachings of China's greatest sage, and it is a healthy and encouraging sign of the great future that is in store for China and the Chinese.

Chinese officials and scholars as well as pilgrims from all parts of China will be gathered at Ku Fou in Shangtung Province to-day to pay homage to this sage.

The Nanking Government will be fully represented at the ceremonies by Mr. Chu Min-Yi, General Secretary of the Executive Yuan and other officials, and it is believed that this year's commemoration of the sage's anniversary will be more widely and more enthusiastically celebrated than in any year since the establishment of the Chinese Republic.

It is noteworthy that there is a general revival of Confucis' teaching throughout China and the Kwangtung Provincial Government has already ordered his work to be read and studied in all schools throughout the province.

In Hong Kong all Chinese schools will be on holiday, and the celebration will be carried out on a grand scale at the Tai Ping Theatre by the members of the local Confucian Society.

MISSING BOX

With Naval Papers

(Special Air Mail Service)

London Aug. 11.

The disappearance of a red Admiralty box containing confidential documents kept officials of the Admiralty and two railway companies, and the police of three towns, engaged in extensive inquiries yesterday.

The box was missed on Thursday from a train travelling from Waterloo to Portsmouth. Last night it arrived at Hebburn-on-Tyne, whence it had been dispatched, having apparently been returned there in error. The box appeared to be intact, and to-day, after an official examination, it will probably be sent on to its proper destination at Portsmouth

The comedy opened on Thursday afternoon, when the box was put in the train at Waterloo in the custody of an Admiralty messenger, who was accompanied by an overseer. When the officials went to collect the box from the guard's van at Portsmouth Harbour it could not be found. The naval, Portsmouth City, and Dockyard police were informed of the loss, and they asked Scotland Yard to assist in the inquiries. Railway employees were questioned, but it could not be ascertained where the box had disappeared.

It was stated at the Admiralty that the box contained papers of no great importance which had come from a firm in the North whose name was on the box. An official added:—"The probability is that it has been returned in error to that address"—and this proved to be the solution of the mystery. The box arrived at Hebburn-on-Tyne at 8 o'clock yesterday evening. The Portsmouth label had apparently become detached, and the box had been dispatched to the only address that could be seen—that of the Hebburn firm of Messrs. Hawthorn, Leslie and Co. Limited.

THE ANSWER TO CRIME

Following the death of John Dillinger, America's "Public Enemy No. 1," reports have been received that another member of this gang has been shot in a gun battle with the police in the street. These gun battles are no uncommon occurrences. On the contrary they happen so frequently that one is led to ask if there is any answer to the question of crime. It has been estimated that racketeering alone is costing the people of the United States about $13,000,000,000 a year and it has been established that the menace is not from isolated, but organised crime, promoted and directed by experienced, criminals. The most distressing fact is that the majority of criminal careers begin in childhood, as many be gauged from the statement of Mr. Charles L. Chute, of the National Probation Association, who said that "the great bulk of crime in this country is a youth problem, and its beginnings are nearly always found in misdirected childhood." To probe further into the question the average age of the prison population in the United States is about twenty-three years while recent Sing Sing records give nineteen as the average age of hold-up men. Two hundred criminals under twenty-one, some sixteen and seventeen were committed there in seventeen months. These figures give an indication of the increase in the number of criminal youth who have not had or who have disregarded the opportunities for education in the trades, professions and business, and who, desiring luxuries and amusements beyond their means fall easy victims to the great temptation of "easy money." Every student of crime agrees that one of the chief causes of delinquency is the inadequate home, the lack of a harmonious, understanding and encouraging home atmosphere, with the security that a good home provides.

Next to "misdirected youth" as a source of crime are slum conditions and low standards of living in crowded cities. Ninety per cent. of the crimes in New York come from less than 10 per cent. of its area. A strikingly large proportion of children in congested areas are found sooner or later in the juvenile court or in the hands of the police. Every effort and agency, therefore, which displaces criminal associations among young people in crowded areas with wholesome recreational and educational advantages is an important preventive of crime.

Other factors in the answer to the crime question include:

Curtailing motion pictures which throw the glamour of heroism and adventure about criminals.

Rooting out corrupt political organizations in large cities.

Improving the standards and administration of the law and of the courts.

Overhauling obsolete legal machinery which is readily manipulated to secure the escape of the guilty.

Strengthening police forces by more careful selection, better supervision, and protection from political interference.

Extention of federal laws to cover more adequately crimes that involve the crossing of state lines.

Individual treatment of the individual offender for the protection of society.

Extension of parole and probation along realistic, not sentimental, lines.

Extension and improvement of juvenile courts and making the laws covering them uniform throughout the country.

Strengthening of character-building agencies in the community.

Constructive promotion of better citizenship generally.

An encouraging side to the picture is the fact that responsibility of the community to prevent crime is recognized as never before. Agencies, public and private, are attacking the problem courageously and intelligently. The average citizen can make his greatest contribution by being a good citizen, by making his home a happy, wholesome place for his children, and by supporting the community agencies to combat and prevent crime.

AMERICA GREETS MR. SOPWITH

Yacht's Crew Praised

(Special Air Mail Service)

London, Aug. 11.

Mr. T. O. M. Sopwith, owner of the America's Cup challenger, the Endeavour, arrived in New York in the Aquitania. A large delegation of reporters, cameramen, and the official "welcoming party representing American yachting, greeted him as the liner steamed up the harbour.

In a brief interview on the sun deck of the Aquitania, which was broadcast throughout the United States, Mr. Sopwith said that with fine weather the Endeavour should reach Newport on Monday night or early on Tuesday.

Mr. Sopwith will spend a few days in New York, and will then go to Newport, where he will live aboard the yacht Vita, while the Endeavour is being refitted at the Herreshoff yards, in preparation for a series of sailing trials before the Cup contest in September.

Mr. Sopwith said he was fully satisfied with the amateur crew which he had engaged just before leaving England, and was convinced that the men would do as well if not better than, the professionals.

He mentioned the crew included one American, Beecher Moore. When asked how he happened to have been selected, Mr. Sopwith said: "He came to my office, and was so persistent I could not get rid of him until I had promised him a berth.

Rainbow's Men Insured

NEWPORT (Rhode I.), Friday.

Every paid hand aboard the Rainbow, a contender for the honour of defending the America's Cup, is insured for £5,000 against injury and for £20,000 against death.

Six men have already gone overboard from the Rainbow in her trial spins and races this season. All were rescued. There is not a square yard forward of the wheel where foothold is safe when the Rainbow heels over to a 40deg. angle in a rough sea.

LORD BEATTY

On A Bigger Navy

(Special Air Mail Service)

Portsmouth, Aug. 11.

Admiral of the Fleet Lord Beatty, speaking from H.M.S. Victory at Portsmouth, where he formally opened Navy Week, declared that the best method of preventing war was to have a Navy strong enough to preserve peace.

Navy Week, he said was held for the purpose of instructing the British public in the work of the Navy The British Empire was a widely scattered one, which depended upon the great sea routes for its very existence. It had developed in the past a Navy and a Mercantile Marine of which the people of this country and the Dominions overseas were justly proud. The Navy to-day was a very small one compared with what it had been in the past. Could it perform the services required of it? Was it big enough to safeguard the sea routes over which came our essential supplies? He was afraid the answer to that question was one very much in doubt.

"Thrown Off The Shackles"

"To-day our lack of cruisers was appalling. We had not at the present time a number of cruisers equal to the number which was required to capture the Emden and the Konigsberg in the last War. It was the duty of the people of this country to insist upon a Navy adequate to perform the services for which the Navy existed. The time had now come when the shackles of international agreement should be thrown off and that the shackles which we accepted in the Treaty of London should be repudiated.

The Navy in the past had been, and always should be, the greatest instrument for the preservation of peace. By it this country in the past maintained its premier position among the nations of the world. The great Lord Palmerston used the Navy in the right way to preserve the peace of Europe. We had had use of power on the art of the Government of Italy, who preserved peace in Central Europe by moving the Italian forces to preserve the independence of Austria.

Best Way To Prevent War

The 4th of August was a sacred date. The unrest in the world today was similar to what it was 20 years ago. Happenings in Europe durng the past week indicate the exisentce of feelings of unrest in Central Europe, and one false step might find the world once more ablaze. It was proper on the 4th of August to make a resolution to do all in our power to have no more war. The best method of preventing war was to have a Navy strong enough to preserve peace, as it had done in the past. From that historic spot he asked the British people to remember that they had a duty to perform to their country in seeing that it was properly defended by a force which was essential to preserve the peace of the world. (Cheers).

HONG KONG DO BADLY

Against Canada At Bowls

(Special Air Mail Service)

London, August 11.

At the Temple Club yesterday morning England played Scotland and won two of the three events. In the Pairs G. W. A. Wright and T. C. Hills gained a surprisingly easy win for England against A. Niven and G. Niven, totalling 28 to 14. The winners played so well that the result was never in doubt. F. Biggin's rink did well in beating Scotland's powerful side, skipped by W. S. Lowe, by 21—12. R. Sprot, Scotland, was altogether too good for J. McKinlay, a brother Scot playing for England. The winner was the better player and tactician. After gaining a lead of 13—4 he played cautiously and finished with eight shots to the good.

At the same time Ireland met Wales and lost the Singles and the Pairs. Of their rink much was expected. Playing up to their reputation they beat the Welsh champions by 21—17. Going to 11—10 in the Singles Dr. J. Rusk raised the hopes of Ireland, but thereafter he failed to hold P. Holloway, who won by 21—13. Wales won the Pairs 21—17.

In the morning session at the Paddington Club Australia gained a narrow win by one in the Singles against South Africa. The latter, however, won in the Pairs 26—18 and the Rink by 20—18. For Rhodesia G. Baker scored a good win by 21—8 over L. J. Keys, who was representing New Zealand in the Singles. The New Zealanders retaliated by winning the Rink, 20—18. Canada made a clean sweep of their events against Hong Kong, winning the Singles by 21—5, the Pairs 18—15, and the Ring 19—10.

Important Matches

The afternoon at the Temple brought together England and Wales, and Scotland played Ireland. This was a vital match for England for they needed to win two of the three events against the formidable Welshmen to put themselves in a strong position. McKinlay did his share by beating Holloway 21—14. Playing far better than in the morning he got in front at the half-way point and kept his lead to the end. Both the Rink and the Pairs did well, and England scored the maximum six points. Biggin's rink were invincible, and won 34—17. Wright and Hills against Davies and Weaver had a much closer struggle, and were 11 all at 13 ends. The Englishmen, playing a grand game, eventually prevailed by 21—17.

For Scotland against Ireland R. Sprot ran away to 19 to Dr. Rusk's seven. Then the latter made a magnificent rally and scored 10 to Sprot's one. On the decisive end Rusk was lying two when the Scotsman with his last wood scored one to win 21—17. Ireland won the Rink 20 19 and Scotland won the Pairs 24—18.

At Paddington Rhodesia tied with Australia in the Paris at 17 all. In the same event Canada beat South Africa 21—16. New Zealand beat Hong Kong in the Rink by 18—16.

In the Singles Rhodesia beat Australia 21—19; Hong Kong beat New Zealand 21—9; and South Africa beat Canada 21—8.

If Gossip We Must

(By PRUDENCE)

There was great activity at the top Peak Tram on Saturday afternoon All the Scouts and Guides in the Colony seemed to be collecting there..... and what a gathering..... Stalwart Sea-Scouts and tall Rovers, Jolly Boy-Scouts in khaki with bright scarves round their necks and staves in their hands (a-la-Robin Hood) and alert little Wolf-Cubs as keen as mustard who informed me that they were all invited to a party given by H.E. the Governor in the grounds of Mountain Lodge.

By this time a number of Girl Guides and Brownies had appeared on the scene, and there is something very attractive about these troops of happy healthy girls in their cool and pretty uniforms. Then came Lady Southern, very smart and trim in the white uniform of Colony Commissioner. She has the cause very much at heart, and her inspiring example; and great enthusiasm have infused the spirit of vitality into the Girl Guide Movement out here.

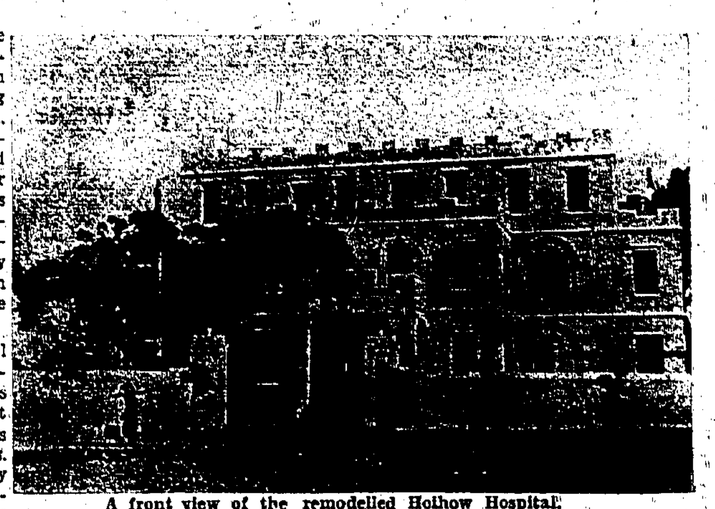
This party was also to be in the nature of a farewell to the Rev. G. T. Waldegrave—wisest and most energetic of Scout Commissioners who will be terribly missed by all who have worked with him.

I followed the crowd up hill, and saw them all line up smartly to enter the grounds, But since I, alas, am neither a "Guider" nor a "Cubber" I did not like to go through the big gates into that enchanted garden of youth and high hopes..... but I can imagine what a warm welcome they would all receive from their kind host and hostess H.E. the Governor and Lady Peel, and what fun they would have on those green lawns.....tho' my imagination failed to visualize the number of buns, ices, and fizzy drinks they would all consume before the afternoon was over!

I lingered long enough to hear the famous Wolf-Cub Howl ring out over the hills and then went reluctantly away.

A NEW KINDERGARTEN

The problem of getting children to school each morning is even more acute here than elsewhere..... And many parents find difficulty n sending their children long distances by Tram or Ferry. Those who live on mid-level may be glad to hear of a charming little Kindergarten Class which has been arranged by Miss B. Newman at No. 11 Caine Road.



A front view of the remodelled Holhow Hospital.

She is busy now arranging her pretty blue-walled Class-room, and several small children of my acquaintance are among her pupils, including Michael and Paul Harriman, Little Sandy Macgown and Richard Hayward.

All first-lesson subjects will be given. Letters will be taught by means of coloured blocks. Then comes sound, and word building primary geography, simple arithmatic, and object lessons, Miss B. Newman has a wonderful way with children and I think her Class should be a great success.

CABARET EVENING AT THE HOTEL

The Roof Garden was packed to capacity last Saturday night and there is no doubt the Caberet Entertainment given by the "Empire Trio" was the lure which drew all the Stalwarts and Lovelies from their usual haunts for the occasion.

There wasn't an inch of space left when Mae Bird and her two companions (Archie Thomas and Harry Simmons) came on to give their clever and amusing burlesque. Mae is very young and pretty and it brought my heart into my mouth to see her flung and swung and bumped about, having (what seemed to me) hair-breadth escapes from death every other minute. She came up smiling tho, and didn't seem to mind in the least. In fact I think she enjoyed it as much as the audience whose only complaint was that (like Oliver Twist) they wanted more.

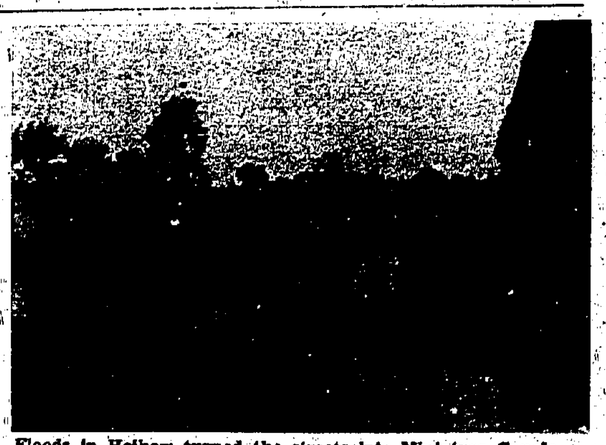
His Honour The Chief Justice and Mrs. McGregor had a huge party of young people and I admired Mrs McGregor's beautiful dress of green chiffon patterned in very deep rose-colour. Miss Jean Mackie looked most charming in apricot satin and net. Miss Marion Wolfe looked awfully pretty in flowered geogette. Mr. Jenkin's little ward Hazel (who, by the way, is getting quite grown up now) was very sweet in gauzy white, and Miss Scott Harston wore white, delicately checked in blue Mr. R. Peel was one of the party but his brother, of course was missing, since he had just left for Singapore.

I noticed Mrs. Fred Tracy looking quite lovely in a dress of rich white lace, and Mrs Condor was at far away in a very uncommon shade of pomegranate, Mrs. Evens had a mauve dress with long close-fitting sleeves which suited her well. Miss Noreen Cooper was wonderful in Spanish-red, while Miss Lorna Lloyd looked very dainty all in black, and Mrs Akins was distinguished in cream and yellow. Mrs. Harvey had a very simple dress of a dark colour which made her look more beautiful than ever, and Mrs. Fredericks was very smart in orange and black Mr. Kadoorie had a big party which included (of course) his pretty fiance and, also Mrs. Raymond, who wore a very striking dress with a pattern of popples on pale chiffon.

Mrs. Bryte wore white with a black coatee, and a band of white flowers in her hair, and Miss Smalley also wore one of these new flower bands with her dress of white and red.

Mrs Harriman looked marvellously fair in silvery-gray.

The three tallest men in the Colony had combined to bring the two prettiest girls with them. Wouldn't you like to know whom I mean? Miss Sylvia Morris very sweet in green and so did the ubiquitous Miss Pat Master.....Miss Yvonne Shenton was brilliant in a dress of dark "cire" satin laced with tourquoise blue Mrs Martell Hall was of the later arrivals and so were the two pretty King sisters. By midnight there was just room to dance but everyone likes a crowd and I am sure all united to vote it a very good evening indeed.



Floods in Holhow turned the streets into Miniature Canals

Among the passengers who left by the s.s. Ranpura for England were Major J. D. A. Whicher and Mrs. Whicher.

Among the passengers who arrived on the s.s. President Jefferson from Shanghai and America on Saturday were Mrs. M. T. Richardson, Miss Van der Linden and Miss Ingeborg Stolee.

The body of Lam Ngo, a married woman, of Ku Tung Villages was discovered at about 9 p.m. on Saturday night at Tong Kok, near Ku Chung, New Territories. Although no property was stolen the police suspects that the woman met her death by foul play.

Apparently with the object of setting the place on fire, some miscreants put a bomb on the stairway of No. 85, Jaffee Road on Friday night. The bomb exploded but fortunately very little damage was done. Examination of the remnants indicate that the bomb was initially detonated by some sort of acid and that it was of an incendiary type rather than explosive.

AMERICAN SILVER POLICY

Acting To Detriment Of China

London, Aug. 25.

Since Congress passed the Silver Purchase Act in May, the United States Government, besides nationalising domestic supplies, is making large purchases abroad with the effect of forcing up the price of silver and further crippling China's capacity to sell products abroad, states the "Times," in a leading article on the drain of silver from China.

As the interest of the United States in silver is of minor importance as compared with China's interest, it seems reasonable that the Chinese Government should have an influential voice in the measures designed to raise the price of silver.

The journal continues that economic dislocation carried to the point of driving China off the silver standard, or inflicting upon her violent deflation, would be a grave misfortune not only for China, but also for the exporters of the industrial West, the journal adds.—*Reuter.*

INDIVIDUAL POLICIES

Paris, Aug. 25.

A fresh decline in sterling and the relative firmness of the American dollar indicate that London and Washington are each pursuing their individual monetary policy as opposed to parallelism.

The continued fall in sterling means that the depreciating forces, especially the flight of capital from Great Britain, are still working. Certain pessimism exists not only in regard to sterling, but also because it is doubted whether, despite the denial of dollar devaluation by the United States Treasury Secretary, Mr. Henry Morgenthau, the United States will be able to hold the dollar at the present level.

There is a general opinion in London that the weakness is due to a strong Continental bear position in sterling aided by tourist expenditure and coupled with the fact that British banks have been exporting funds to Paris where short-term rates are more favourable.

Continental selling is believed to be mainly due to fears regarding the future of the dollar, which is at present firm owing to gold exports from New York.

Estimates of the amount spent yesterday by the exchange Equalisation Fund to support sterling vary between £1,000,000 and £3,000,000, the best informed quarters placing the figure at £1,500,000.—*Reuter.*

SHARP RISE IN GOLD

London, Aug. 24.

The price of gold in London rose sharply to-day by 7½ to 139/3d per fine ounce and is now only ninepence below the record high price touched on February 5, following President Roosevelt's announcement of the dollar devaluation plan.

To-day's price included a premium calculated at 2/3d over the dollar and 7d over the French franc.

The rise in price stimulated interest in South African mining shares on the stock market, and prices strengthened.—*British Wireless.*

[Special to the "Hong Kong Daily Press" (*Copyright.*)]

After returning to his home, he committed suicide by taking veronal, the explanation given being that Pogrzbacz felt himself abandoned by the ex-Vice Chancellor engineer, Winkler, who is now living in Czechoslovakia.

London, August 11.

Mrs. Dempsey, wife of the former heavy-weight champion, has given birth to a daughter (says message from New York). The child weighed 7½lbs. Both mother and daughter are doing well.

It is Jack's first baby. He had hoped for a boy. As it is a girl he is going to call it either Hannah, after the mother, or Jacqueline, after Jack.

London, Aug. 26.

An absolute denial was given in London reports circulated in Japan and Paris during the past week that an understanding has been reached between Britain and Japan affecting their relations in the Far East or possibly have a bearing upon naval strengths, declares the diplomatic correspondent of the "Observer."

The information available in London is that no negotiations of any kind for an approachment between the two countries have been opened.

There is no connection whatever between purely business objects of the Federation of British Industries trade mission and recognition of Manchukuo. The policy of the Goverment in this respect remains unaltered.—*Reuter.*

CHIMNEY SWEEPS IN POLAND

(Special to "Hong Kong Daily Press")

(By Telegraph, Copyright, Telegraphic Messages Ordinance, 1894. Received, August 26, 7.30 p.m.)

Warsaw, Aug. 26.

Chimney sweeps came out of their traditional dark corners into the middle of the limelight and demanded the right to swab stovepipes and matters came to a head when ten men of the ancient profession brought a suit against the Polish Government.

Last year a number of sweepmasters were denied further right to ply such a trade as a result of the realignment of labour in the province of East Upper Silesia which was gained from Germany under the Versailles Treaty.

The protest case has now at last been laid before a mixed claims court at Kattowitz.—*Transocean Kuo Min.*

JOURNALISTS OUTWITTED

Schuschnigg Leads A Merry Chase

(Special to "Hong Kong Daily Press").

(By Telegraph, Copyright, Telegraphic Messages Ordinance, 1894. Received, August 26, 4.30 a.m.)

Rome, August 25.

The elusive Austrian Chancellor, Schuschnigg, arrived fleetingly on Italian soil on Saturday after leading the journalists a merry chase round the Riviera during the last forty eight hours.

Motoring towards Brenner Pass, the new Austrian leader stopped long to visit his birthplace, the village Riva on Lago di Guarda where he was given a triumphal tour in company with the leading Fascists.

Speeding further north in the late afternoon the stateman's swift auto threw further dust into the eyes of the pursuing journalists who fruitlessly trailed the vacationing Chancellor from Nice through Turkin, Milan and Brescia in the previous night.—

SEEKING A LOAN

Paris, Aug. 24.

The mystery regarding Schuschnigg's whereabouts and doings ended on Friday forenoon when he left Nice by rail for Ventimiglia. After crossing the Italian frontier, Schuschnigg will proceed direct to Vienna by motorcar.

Reports from Vienna and Geneva states that the Austrian Government is seeking a new loan and add that Schuschnigg intends to utilise the occasion that will arise when the Finance Minister, Buresch, submits the next financial statement to the League of Nations, to draw attention to the fact that the retention of increased strength of the army and gendarmes, just conceded to Austria by the great Powers, will burden the Austrian budget to the estimated amount of two hundred million schillings. Since the Austrian Government is unable to raise this sum internally they will appeal to the Great Powers for financial cooperation in the task of maintaining order in Central Europe.—*Transocean, Kuo Min.*

Vienna, August 25.

The military court trying seven insurgents of the July revolt, charged with killing a gendarme by shooting him through the temple, failed to return the death sentence on Saturday since it could not be proved which revolutionary of the band fired the fatal bullets. All seven participated in the surprise attack on the gendarmerie post, Laakirchen near Gmunden in the heart of Tyrol which was the strongest anti-Dollfuss section in Austria.

Two of the defendants were sentenced to life long imprisonment with hard labour, and the remainder to terms between twelve and eighteen years.—*Transocean Kuo Min.*

THE WAITER AND THE ADMIRAL

A Navy Week Surprise

(Special Air-mail Service)

Portsmouth, August 11.

"I'm sure I served with him during the war!"

Tre exclamation was uttered by the chief waiter at a Bloomsbury hotel, indicating to his wife at the same time a naval officer who was passing them to-day in Portsmouth Dockyard.

The yard is open to visitors during certain hours in connection with Navy Week, and the Londoner was taking advantage of the opportunity to revive old memories.

Overhearing the words, the officer turned and spoke to the civilian. He had been a wardroom steward in the battle-cruiser Princess Royal.

And the officer whose walk had been abruptly interrupted by the remark was Commander-in-Chief Admi. Sir John D. Kelly, who, during the war, was in command of H.M.S. Princess Royal as Capt. Kelly.

Sir John Kelly has been Commander-in-Chief of the Home Fleet since 1932.

The press states that they will see Marshal Chiang Kai-shek and other leaders at Nanking and Canton.—

London, August 11.

A new British gliding record was set up by Mr. G. E. Collins, of the London Gliding Club, during a flight yesterday from Dunstable Downs to Wells-next-the-Sea, near Hunstanton, a distance of 95 miles. Mr. Collins, who has never piloted an aeroplane, took off comfortably, and rose to a height of about 4,000ft., which he maintained practically throughout his 3½ hours in the air. On arriving over Wells he was still at a good height, and in his descent he performed a loop before landing on the beach.

The flight was 40 miles longer than the previous British record set up by Mr. P. A. Wills, another member of the London Gliding Club on March 18, when he flew from Dunstable to Latchington, Essex. Mr. Collins dared not risk being carried beyond the coast and into the North Sea, so he looped to reduce altitude, and landed on the beach. Mr. Collins is the only British holder of the Silver C. Medal, the highest award for gliding. This is the third occasion upon which he has broken the British distance record, and on March 18 he created a world's record when he flew from Dunstable to Chelmsford, a distance of 46 miles, with a passenger.

At the annual German gliding competitions in the Rhon Hills between Hessen-Nassau and Bavaria last month, a world's long-distance record for motorless flights was set up by Herr Heini Dittmar, who flew a distance of about 235 miles.

An Altitude Record

An official British gliding altitude record was established by Mr. P. A. Wills while taking part in the inaugural meeting of the National Gliding Centre on Sutton Bank, near Thirsk, yesterday. He reached a height of 5,100ft. above the starting point, and 6,000ft. above sea level. Mr. Wills's previous altitude record was 4,600ft., made when he set up the distance record which was beaten yesterday by Mr. Collins.

LAWN BOWLS

Open Rink Final

The final of the Open Rink Championship which was played on the Craigengower green yesterday between Grimmitt's and Moss's rinks, proved to be one of the poorest games seen in the Colony for a long time, for apart from the bowling itself which was not up to the standard expected, the game was too one-sided to be of any interest.

The match resulted in a win for Grimmitt's rink by the amazing margin of 31 shots, the score being 39-8. Moss and his men were completely off form and managed to score on only five heads, the last two being more or less a gift when the result of the match was already decided.

Grimmitt was the outstanding player on the field, and was well backed up by Simmons and Jones. The losers, with the exception of Moss, in some instances only, played very poorly.

The winners scored on no less than 16 heads, at one stage in a succession of nine heads.

CURRENT NEWS FROM CHINA

NEWS AND COMMENTS FROM THE NORTH

"A MOST DISGRACEFUL CONTROVERSY"

Strong Language About Old-Style Chinese Doctors

In the opinion of Mr. Fu Shih-nien, Director of the Department of Philology and History of the Academia Sinica, the most disgraceful and discouraging thing in China to-day is the bitter controversy which is going on between medical practitioners of the traditional school and Western-trained doctors.

In an article in the *Ta Kung Pao*, a Tientsin paper, Mr. Fu says that no matter how serious the Communist-bandit situation may become, it can be solved through political reform, and the menace of Japanese invasion can also be checked by determination to strengthen national defences, but controversy between proponents of Chinese medicine and adherents of Western medical science exposes to the world the worst characteristics of the Chinese people.

Misguided Patriotism

Mr. Fu wonders if there is not somethng wrong with the mentality of the Chinese race, for he finds many Chinese scholars, who have been enthusiastic introducers of new learning into the country during the past forty years, and were among the pioneers who discovered Western learning, are now proving to be the most stubborn defenders of the traditional school of Chinese medicine.

It is the opinion of Mr. Fu that the main reason why so many Chinese still believe in what is termed national "medicine" is patriotism of the most misguided type. It is quite natural—and a good thing to a certain extent—for the people of a country to take pride in the contributions of their compatriots to science and scholarship, but what is termed "national medicine" according to Mr. Fu, is not an indigenous product. During the Tang Dynasty Chinese medicine was greatly influenced by India and Central Asia, and during the Sung and Yuan Dynasties Arabian medical practitioners contributed much to it. Chinese medicine, says, Mr. Fu, knows nothing about pathology, is entirely based upon empiricism, and consists simply of a collection of prescriptions drawn from many sources. Modern medical science, as distinct from Chinese medicine, has reached an international character, and although people still talk about Japanese, German, French, and American schools of medicine, so far as fundamental concepts are concerned, there are no national boundaries.

Patients With Two Doctors!

While many Chinese still have a lingering and pathetic faith in "national medicine," Mr. Fu declares there is another class of people who hold no definite ideas on the subject, but when they fall sick will try both Chinese and Western-trained doctors at the same time to see which is the better of the two! This extraordinary attitude is due to the existing system of education, which has not yet succeeded in instilling a scientific outlook in the minds of the people.

After severely criticizing the recent action of the Control Yuan in impeaching the superintendent and acting superintendent of the Central Hospital in Nanking for alleged negligence in causing the death of patients, Mr. Fu suggests that instead of the Control Yuan undertaking a defence of the traditional school of medicine, the Government should take action against Chinese doctors of the old school and quacks in general.

Some Practical Suggestions

More medical schools should be established for training doctors for service in the interior. Graduates turned out by the National Medical College and the P.U.M.C. should be sent to work in the interior, where only a few foreign missionaries are available, instead of working in the big cities. A course in rural medical service should be established in some of the well-known medical schools, or alternatively new medical schools opened in the interior. Public health work in rural districts should be inaugurated in the interior, and since the Chinese are ignorant about the most elementary matters concerning public health, more nurses should be trained for service in the interior. Further, the Government should assist private Chinese enterprise in maufacturing the medical supplies most commonly needed, and finally Mr. Fu declares that the Government should encourage the birth-control movement.

AT PEITAIHO

Season A Success

Peitaiho, Aug. 5.

The season so far has been quite a success. The weather has been quite cool, although we have had more than the usual rains. The thermometer on my verandah has not registered above 86 degrees. Beach troubles are being handled by the police, and the richshaw and donkey invasion of the beach while bathers are about is lessened.

Annual Meetings

Both the Rocky Point and the Eastcliff Associations have had their meetings. Rev. W. H. Gleysteen being renominated chairman of the R.P. Association, while Mr. Dwight Edwards retains chairmanship of the Eastcliff Association.

At each meeting it was resolved that the House and Land Assessment taxes should be still collected by the honorary treasurers, and when the question of collection by the local government has been decided by the Consular bodies the amount of assessment necessary to be paid by the members of these associations will be paid in one lump sum for each of the associations. Meanwhile delegates —two from R.P. and two from E.C.—will undertake negotiations with the local government when they are ready to discuss matters. During the coming winter it should be possible for these delegates to meet the local officials and come to some amicable arrangement.

Warship Visits

We have had visits from British warships, first came H.M.S. Adventure. (By the bye, this is the name of the warship that the writer came to China in 60 years ago, come next month.) Then came the Suffolk. Now we have another, but much smaller ship. It was pleasant to see the tars moving about the place. They behaved beautifully, too.

A sad accident occurred in the neighbourhood, by electrocution, of a donkey man. Before the engine started a cart man using his whip connected with one of the wires. He pulled the whip in order to free same and tore down the wire. He left it and never mentioned the matter. Later the lights were turned on. A donkey-man was passing along and noticed his animal had jumped over the wire, he lifted the end, in order to clear it out of the way, and could not let go. When falling the wire rested on his body, he was found nearly dead about half an hour later. A doctor tried to resuscitate him, but it was too late.

Several houses have changed hands this season, and many are inquiring with a view toward purchase.

The Electric Light

The electric light is extending westwards. It is not exactly giving satisfaction, but it is hoped that next season everything will be running smoother. There will be two engines working then.

Fishing so far has not been at all up to the mark. Only a few bass are being brought in. Several Spanish mackerel have been captured. This pleasure—i.e. after the mackerel—is great but it requires time to troll for them. They give great fun on a small tackle.

The wily snipe are just coming in, and as we have had lots and lots of rain this season. Wild fowl shooting should be great fun when they come in, which will be very shortly.

The health of the community is perfect. No epidemics so far, notwithstanding the very wet weather.

COMMUNISTS AT LION'S POINT

Over One Hundred Killed

(From Our Special Correspondent)

Canton, Aug. 26.

After a battle lasting five hours, the Cantonese troops in Southern Kiangsi were able on August 22 to drive away the Communists at Lion's Point, which is in a territory under the jurisdiction of the First Group Army, according to a report from General Yu Hon Mou, commanding officer of the First Column Anti-Red forces.

The report stated that the Communist position was well fortified, and when the government forces surrounded the Reds' stronghold, they put up a stiff resistance. After a fierce engagement, the lair was occupied by the government forces. The Communist troops retreated to their headquarters at Hwei Chang, 40 miles East of Lion's Point.

According to General Yu's report, over 100 Red soldiers were killed while defending their position. About fifteen rifles were also captured. No prisoners were taken, and the report did not reveal the casualties to the government troops. It was learned from other sources that over 150 Cantonese soldiers were killed as they were on the offensive and attacked the Reds who were sheltered behind entrenched positions.

Lion's Point is a strategic position in Southern Kiangsi between Hwei Chang and Hsin [illegible] That place had to be recovered from the Reds in view of the rehabilitation scheme being put into effect in the entire area.

SIR ROBERT PEEL'S STATUE

May Go To The "Yard"

(Special Air Mail Service)

London, Aug. 11.

A Scotland Yard "mystery" was cleared up to-day when it was learned that a wooden structure on the Victoria Embankment outside the "Yard" has been put up for experimental purposes, the idea being to see whether the site is suitable for a statue of Sir Robert Peel.

The statue of Sir Robert, the founder of the police force, is at present in Cheapside where it has stood for more than 50 years.

It has been offered to the "Yard" providing that a suitable place can be found for it.

Lord Trenchard, the Commissioner of the Metropolitan Police, Sir John Moylan, the Receiver, Colonel Drummond, Lord Trenchard's aide-de-camp, and Mr. Howgrave Graham, the secretary, to-day inspected the site.

No definite decision as to the suitability of the site was reached.

The removal of the statue from Cheapside would mean the disappearance of one of the oldest "pitches" for flower girls in the City.

THE PRINCE'S JUNGLE ADVENTURES

(Special Air Mail Service)

London, Aug. 11.

The exciting adventures which befell the Prince of Wales while he was big game hunting in Africa will be told, many of them for the first time, in a book to be published in November.

"It is entirely incorrect to say that the Prince is writing the book," a high official of the Prince's staff told a reporter yesterday. "The Prince has not written one single word of it.

Official Diary

"All that happened was that Mr. Patrick Chalmers, the author of the book, was given permission by the Prince to use material from the official diaries which were kept during the tour in the East African jungle.

"These diaries were not written by the Prince, but kept daily by members of his staff as an official record of the journey."

CHINA CONGRESS OPPOSITION

Sinister Motives Alleged

(From Our Special Correspondent)

Canton, Aug. 26.

The government-owned vernacular newspapers here to-day featured a circular message from the North China National Salvation Association which opposed the calling of the Fifth National Congress of the Kuomintang at Nanking in November under the auspices of the National Government.

Addressed to leaders in various parts of the country, the telegram said that the delegates for the Congress were already elected last year. They are all hand-picked and cannot be said to represent the views of the Kuomintang members, it is pointed out.

Th circular message recalled that few of the resolutions adopted by the Fourth National Congress were put into effect, while in the coming Congress the Nanking military party will utilize it to elect a president for the Republic of China and to enable General Chiang Kai Shek to set up a dictatorship.

Under the pretext of revising Kuomintang regulations, the message said that the Congress will convert the Party into a Fascist faction and undermine the foundation of the Kuomintang. The message therefore urged all the leaders not sympathetic with the Nanking Government to oppose the Fifth Congress.

FREE ELECTRIC SERVICE

No Longer To Be Continued

(From Our Special Correspondent)

Canton, Aug. 26.

Free electric service will be ruled out after readjustment of the electric power management. The plan for readjustment is approved by the South-west Political Council.

The time for readjustment will take two months. All important government offices are represented in the readjustment committee. Among the governmental departments which will be represented in the new committee are the First Group Army, the Bureau of Public Safety, and the Gendarmes Head-quarters. Any resolutions of the committee will be enforced by the olice and gendarmes when necessary.

"Hereafter all government offices and schools are required to pay for the electric service at fifty per cent. discount. Now they do not pay anything at all for the service. Therefore a good deal of electric consumption is used by turning on the electric fans in the summer and electric heaters in the winter. In many government offices, the electric lights are burning all night.

The same privilege is extended to government schools. Private schools pay a certain percentage. Under the new rule they will have to pay one half of the usual rate.

Many government employees likewise do not pay for the electricity they use. The meter is removed, and free supply is obtained by tapping the street wires. As a result of this extensive free service, the electric administration collects only one-third of the total account. The new committee is to stamp out this free supply and to make improvement of the power station and the service in general.

SCOTLAND'S DOMESTIC AFFAIRS

Should Be Controlled "Internally"

(Special Air Mail Service)

London, Aug. 11.

The quaint Fair and patriotic demonstration held at the East Stirlingshire mining village of Wallacestone, near Falkirk, to pay homage to the memory of Sir William Wallace, the national liberator, and commemorate the first battle of Falkirk, took place on Saturday. In addition there was held a "walk" by the members of the Sir William Wallace Grand Lodge of Free Colliers and the Royal Reddingmuir Lodge of Ancient Shepherds. The procession was headed by standard-bearers and swordsmen, and music was supplied by two bands.

At Wallacestone has been erected a memorail to mark the spot where Wallace was believed to have viewed the first battle of Falkirk. From the stone patriotic orations were delivered by several speakers.

Brother William Pringle, of the Shepherds Lodge, presided over the proceedings, and in the absence of Sir Alexander M'Ewen, Inverness, the principal oration was delivered by Provost A. G. Logan, Falkirk, who emphasised Wallace's worth to Scotland. He said that the country required a liberator to-day and also the spirit so plainly manifested in all the work of their national hero. Though he did not think it would be policy to sever all connection with England, Provost Logan stated, it was his view that Scotland should be given leave to manage her own domestic affairs. Candidates who would not agree to plead for Scotland being empowered to manage her own domestic affairs should not be supported by patriotic Scots for entry to Parliament.

NEW YORK STOCK AND COMMODITY QUOTATIONS

AMERICAN ORIENTAL FINANCE CORPORATION AND S. E. LEVY & CO.

New York, Aug. 25.

The American Oriental Finance Corporation's report through their New York agents, Messrs. E. A. Pierce & Co., states:—

Stocks:—We think a conservatively bullish attitude is justified.

Wheat:—The strength of corn was the main constructive influence. The market was encouraged by some local buying, while Commission Houses participated to some extent. There are little hopes of a precipitation next week.

Corn:—There was strong and aggressive Commission House buying. The Trade was active.

Cotton:—There was some hedge selling and trade demand was less urgent. The weekly weather forecast indicates more favourable conditions. There was moderate buying by the Continent and the Far East.

New York, Aug. 25.

Messrs. S. E. Levy & Company's report, through their New York agents, Messrs. White, Weld & Co., states:—

Stocks:—Inflationary rumours persist and some good buying was again in evidence. Business done 750,000 shares.

Bonds:—High-grades were unchanged. Government issues were up fractionally. Second-grades were better.

Wheat:—The technical position is improving, while grains are acting better for the time being. A trading attitude is suggested and purchases on set-backs are preferable. Thursday's sales: 22,912,000 bushels.

Cotton:—There are brighter prospects of mill buying and some mills are resuming full-time operations on Monday. Good European and Wall Street interest was reported. Hedge offerings were negligible and higher levels are indicated.

Rubber:—The market is quiet. The Trade absorbed a moderate amount of liquidation, while manufactureres were also fair buyers. Sellers were decidedly reluctant on declines. Business done: 30 lots.

LATE NIGHT CABLES

The following cables were received on Saturday night by Messrs. American Oriental Finance Corporation.

London Forecast

Cotton prices are expected to be temporarily lower. Japanese houses are reported to be paying a premium of 20 points for the new crop in Georgia for spot Cotton. This is without precedent, because they usually buy in the west.

Wheat prices may possibly open higher, owing to the tightness of corn.

A.O.F.C. New York Cables

Stocks:—The market is slightly higher and fairly active with several large blocks done.

Cotton:—Hedge selling is more pronounced this morning supplying trade demands at limits.

S. E. Levy & Co.'s Cables

New York, Aug. 25.

The following cabled reports were furnished by Messrs. S. E. Levy & Co. on Saturday night.

Amercian Weather Report

The Spring Belts are experiencing cold weather at night there will probably be a little more frost. The forecast is that it will be warmer.

The Corn Belt and the North-west Cotton Belt are very cool but unsettled. This is of doubtful value to the crop as the latest report is that parts of Texas are still hot.

London Silver

Spot:—21½ down 1/16.
Forward:—21½ down 1/16.
America and India bought. China sold. Business smaller. Market closed quietly steady.

Market Report

Favourable factors before the opening of the markets: The signing of the Cuban Trade Agreement. The market displays a good technical position. Week-end trade reviews report an improvement in the retail trade with the outlook regarded as brighter.

Unfavourable factors were:—Carloadings are showing a little recession, which is contrary to seasonal expectations. There are no signs of an early change in steel activity, although it is hoped that some improvement will develop, at least by the end of September.

The market is steady, but price movements are very narrow Sentiment regarding the immediate outlook is somewhat mixed, with traders awaiting developments in business conditions and at Washington.

ELGAR'S PICTURES SOLD

Total Of Only 22gns.

(Special Air Mail Service)

London, Aug. 11.

Although the late Sir Edward Elgar had a page to himself in Christie's catalogue yesterday, his "few things" proved to be of very little value. They realised only 22gns altogether.

Thirteen oil studies of dogs and ducks by the Lyndhurst artist, J. Emms (who flourished in the 'eighties) brought 9gns; H. P. Riviere's "Gipsy Fortune-Teller," 1859, fell at 9gns and a Kneller picture of a lady playing a guitar fetched a couple of guineas.

AUSTRAL-CHINA SERVICE

Popular Line Resumed

Old residents of the East will remember the very popular shipping service, which the Norddeutscher Lloyd Steamship Co. of Bremen maintained between Australia and China some years ago.

It is now announced that the N.D.L. have decided to resume this service with their m.s. Merkur and Neptun and that the first sailing from Hong Kong will be at the end of December with monthly sailings following.

The Merkur and Neptun are twin-screw vessels of the latest type of 6,000 gross Reg. tons. Their length is 392', breadth 52' and depth 27' 8".

The two sister ships are luxuriously equipped for first class passengers and they have also ample accommodation for third class steerage and deck passengers.

The first class are nearly all single berth cabins with some suites, most comfortably and tastefully furnished. The ships are specially constructed for tropical trade; all the saloons, lounges and cabins are well ventilated and cool. A large number of bath rooms are available for the passengers.

These speedy ships will run on a fixed schedule between Hong Kong and Sydney-Melbourne, calling at the Philippine Islands, British North Borneo and New Guinea ports en route.

With modern equipment on board and an interesting itinerary en route this new line offers great attraction and should soon be very popular with the travelling public.

It is further announced that this new line will not affect the service of s.s. Friderun and s.s. Bremerhaven, which will continue to maintain regular monthly sailings to main ports and out-stations all over New Guinea and the British Solomon Islands.

Messrs. Melchers & Co. are acting as general agents for the new Austral China Line of the Norddeutscher Lloyd in the East."

GERMAN SHARE MARKET

[Special to the "Hong Kong Daily Press" (*Copyright.*)]

Berlin, Aug. 24.

The report of the satisfactory condition of the State finances acted as a stimulant in the sharemarket which continued in a friendly tone. The shares that attracted chief attention were those of companies producing raw materials or substitutes for such. The fixed interest security market was also buoyant in all sections but especially gold mortgage bonds, advances being as much as 1 per cent.

Call Money 4 to 4¼, Young Loan unchanged at 93½, Reichsbank unchanged at 155¾, Salzdetfurth Potash 1 higher to 159¾, German Steel Trusts weakened ½ to 40½, German Mineral Oils declined ½ to 115, Siemenshalske improved ½ to 146½, Bemberg Rayon unchanged at 69.

Except in special cases, the prices on the sharemarket at the end of the week were not vastly different from those at the beginning. These exceptions were chiefly of companies engaged in the production of raw materials such as coal, iron, lignite and mineral oil. The turnover throughout the week was small in every branch, the rises that occurred taking place gradually. This state of market is explainable by the fact that though the plebiscite is now over and the result places the regime unquestionably on a thoroughly and permanently stable basis, no definite indication is yet given of the new economic policy to be adopted to cope with the economic situation in the approaching winter.

Fixed interest securities rose constantly throughout the week and finished higher. This is quite the normal outcome of the present situation where investors are hesitant hence they prefer gilt-edged to industrials.—

STRATOSPHERE ADVENTURE

Professor Cosyn's Statement

[Special to the "Hong Kong Daily Press" (*Copyright.*)]

Brussels, Aug. 24.

Details of Professor Cosyn's adventurous stratosphere flight were revealed here for the first time on Friday night in a public statement made by the Belgian professor himself and his assistant, van der Elst.

The deepest impression made on the stratosphere explorers was the extreme cold which greatly hampered all bodily movement during the fourteen hours sojourn in the upper air. The earth remained hidden by dense cloud formations during almost the entire period and this, combined with the total failure of the radio apparatus to function, made the descent difficult and dangerous. The balloon travelled at an average vertical speed of 85 kilometres, this having no perceptible effect on the two men. Both observers reported remarkable colour atmosphere at an altitude of 16,000 metres which they described as deep violet blue. At the same height the sun appeared to the scientists as a petre disc. During the entire fourteen hours of the strenuous journey neither man took more than the sparest nourishment because they were so busy operating the scientific instruments and recording data.

Cosyns declared it should be possible with a specially equipped balloon to reach the maximum altitude of 30,000 metres but, in his opinion, the attainment of still higher altitudes than that by the use of balloon of any type was impossible.—

FRENCH SHIP

Sails For Santuao

Shanghai, Aug. 11.

The French sloop Tahure left Shanghai for Santuao, north of Foochow on Monday, as a precautionary measure in view of the unsettled situation in the province. Although the Government claims that the threat to Foochow has been broken and the Communists are being driven back the situation has not been completely liquidated.

When the Communist drive on Foochow became alarming on August 4, the Tahure was rushed to the scene from the south. First taking station at Foochow she was later sent to Santuao on the information that French missionaries were in danger in that district.

On August 6, the Tahure was replaced by the Dumont D'Urville which served through the most critical period and acted as communication vessel between the Government forces and the Government when Santuao was cut off from communications with the interior of China. The Tahure later took Admiral Richard, Commander-in-Chief of the French Naval Forces in the Far East, to Ningpo and then proceeded to Shanghai, where Admiral Richard transferred his flag before leaving on a tour of the Upper Yangtze. On her trip south, the Tahure will replace the Dumont D'Urville pending the pacification of the district.

After two months' repairs and overhauling at Kiousin Docks, the Doudart de Lagree underwent her trials on the Upper Whangpoo on Monday and attained with little effort a speed of 12 knots. She will leave for service on the Upper Yangtze at the beginning of September. One of the passengers on the vessel will be Father Lejay, Director of Siccawei Observatory.
